PLAINSBORO FIRE COMPANY TO DEDICATE NEW TANKER AND LAUNCH MEMBERSHIP DRIVE AT FIRE PREVENTION WEEK OPEN HOUSE

FOR IMMEDIATE RELEASE

CONTACT: Tom Healey, 609-235-5761

PLAINSBORO – The Plainsboro Fire Company and the Board of Commissioners of Plainsboro Fire District No. 1 will dedicate their new 3,500 gallon Kenworth/Sutphen tanker truck and launch a membership drive during its Fire Prevention Week Open House on Sunday, October 8 from 12 noon to 4 p.m.

The tanker arrived in Plainsboro in August. It replaces a tanker that was purchased used from another district in 2014. A survey by Plainsboro fire officials determined that about a quarter of the township and more than 100 buildings were not protected by fire hydrants, leading the fire district to purchase the original tanker and its replacement.

In late September, the fire company began advertising for new members using lawn signs placed strategically throughout the township. The open house is an opportunity for anyone interested in joining to talk to fire company officials.

In addition to the tanker dedication and new membership information, the open house will feature a children's fire safety house and a fire extinguisher training device.

Refreshments will be served.

The event will take place at the Plainsboro firehouse, 405 Plainsboro Road at the corner of Prospect Street.
